

# « Putting our experiences together to feed of one another »

Towards a better support of people with mental  
and psychic disabilities

**Practice and know-how sharing highlights  
the concrete work of professionals, mutual enrichment  
and development of innovative actions  
within the same sector.**

Partage d'expérience sur le handicap mental et psychique  
*Practice and know-how sharing on mental and psychical handicap*

# Handiplanet, a program committed to knowledge and experience sharing.

As a program of the Foundation des Amis de l'Atelier, Handiplanet network aims at connecting **organizations, professionals, families, people**, who, in different countries all over the world, want to meet one another, compare their practices and share their experiences and knowledge about mental and psychological disabilities.

## Access free network

It is available online thanks to a website for readers only and anyone interested in the mentioned subjects. More than just an information portal, it focuses on practical field experiences and offers its own multilingual methodology to gather experiences and resources.

## Handiplanet lives through your written contributions!

We are interested in everything which is done, in the world, for people with mental or psychological disabilities. You'll find on our website a charter, experience index cards, testimonies, all related to disabilities and through every continent.

**You are also invited to contribute by login in and sharing your experience and your know-how.**

## Practice and know-how sharing

The network asks every practitioner, researcher, teacher, family, and person who received support to share their professional and personal experiences, their knowledge and skills in the form of:

- experience record,
- testimonials,
- exchange hub
- and source of knowledge

[www.handiplanet-exchanges.info](http://www.handiplanet-exchanges.info)

Experience is

**OUR MAIN WEALTH**

And may be awarded

**WITH NUMEROUS PRIZES!**

**Participate!**

## Calls for contributions

Handiplanet sends out every year new calls for contributions on different subjects and across different geographic areas. Some of these calls may be contests and be rewarded with prizes.

## Partnerships

Simultaneously, Handiplanet organizes discussions and interpersonal meetings, through partnerships with associations or organizations in developing countries. Having a very special bond with a partner allows comparing practices and keeping an eye open on other realities than the ones we all face daily.

*« This initiative is interesting it allows us to highlight our projects, even the humble ones, and to show what we do daily. »*

ADAPEI 49, France

*« Very noteworthy project »*

Agence Wallone pour l'Intégration des Personnes Handicapées, Belgique

*« Your approach is particularly interesting and pioneering in the world of social work; you gather different ideas and propose them to the WWW so each and every one can feed on it and adapt some ideas to his specific work environment. »*

CESAHM, Belgique

*« I realize the value of such a site and its importance in setting bond disability around the world. I am very impressed by this work. »*

Rapporteur Spécial pour l'ONU sur le handicap de 2003 à 2009
